

# Glovlet

The hygiene and comfort solution for professional glove users.

Glovlets are the comfortable hygienic solution for perspiring hands. They are a finger-less, re-usable cotton inner Glovlet.

## Benefits

- Fingerless & Re-usable cotton inner glovlet designed to reduce perspiration under other outer gloves.
- Damp-donning and quick changing during operations are easily accomplished thanks to the Glovlet's construction and comfort.
- A noticeably soft material that creates a highly breathable barrier between your hand & the chosen outer glove.
- Washable and re-usable.
- Great for Gyms/sports, factory workers, mechanics, food industry, electronics industry.
